4" Network IR Middle Speed Dome

KEY FEATURES

· 4pcs OSRAM IR Array LEDs+2pcs Laser LEDs,IR Distance 100M
· 360° all-frame endless rotation
· Medium Speed PTZ 0.1-40°/S
· ONVIF protocol ,Support most NVR
· SUPPORT P2P, PC/iOS/Android remote control
· Preset cruise, pattern scanning,area scanning, 360°horizontal scanning
· Housing:Aluminum die casting shield
· Waterproof:IP66,Lighting protection:4000V
· Power Supply:DC12V-2A

8" Full Metal Case Network IR Speed Dome Camera(Middle/High)

KEY FEATURES

· 8-inch Full Metal High Speed Dome with Full Color
· With the latest Sony Star-Light CMOS sensor,Super WDR for better HLC function,better solved the problem of car headlight effect the image quality of license capture analysis.
· High Speed:0.1-240°/S
· With 12pcsWhite Leds,200m IR distance
· Smart Judgment for the brightness exposure requirements of the license plate area,dynamic adjust the power values of LEDs to make the license catpture clear by adjust the electronic shutter to the highest value
Apply to all kinds of low light and no light environment that need to see clear for the car license plate,100-200m scope,the installation height is 3-6 meters,i.e.,Parking lot,illegal capture,illegal U-turns and other low speed monitoring occasions.

4"/6"/8"Intrusion Analysis Alert Tracking Network IR High Speed Dome

KEY FEATURES

· Full Color High Speed Dome
· With the latest Sony Star-Light CMOS sensor,the higher sensitivity and latitude, the perfect image.
· Intrusion detection based on AI intelligent analysis. Supports a variety of behavior detection such as Tripwire, Intrusion, crossing fence, and fast moving. Support multiple trigger rules and linkage actions.
· Support auto tracking function, after finding the target that meets the intrusion rule, the dome will immediately rotate the target-centered position to zoom in and track the target motion. In this way, the monitoring personnel can see clear target characteristics and provide objective and realistic video data for the identity of the suspicious individual and the after-the-fact comparison.
· Support active defense intrusion function: After the target is found, the dome automatically turns to the target position, flashing the visible light , and the audio output line drives the live speaker to send out the voice.
